RF Technologies® Announces Contracted Supplier Relationship with Premier Purchasing Partners

Brookfield, Wis., July 2, 2009 – RF Technologies®, a leading provider of radio frequency identification monitoring systems and healthcare security solutions, has been awarded a 26-month contract with Premier Purchasing Partners, L.P., the group purchasing unit of Premier Inc., for its Safe Place® product line. The new agreement allows Premier members, at their discretion, to take advantage of special pricing and terms pre-negotiated by Premier for RF Technologies' products.

“The contracted supplier relationship with Premier opens a lot of doors for RF Technologies. We’re proud to be associated with a company that brings together thousands of healthcare experts to share technological innovations,” stated Keith Koby, Executive Vice President of RF Technologies, Inc.

Progressive technology providing safety to hospitals

The Safe Place Infant and Pediatric Security Solution protects infants and children within an assigned area of a hospital. Security begins as soon as the nurse attaches the small, lightweight transmitter onto the child’s ankle. If an abductor attempts to remove an infant through a protected doorway or other point of exit an alarm will sound. Any attempt to tamper with system wiring or tags by unauthorized personnel will send an alert to the monitoring system.

A first-to-market solution, Safe Place Elopement Management Solution, uses a discreet banding technology to monitor "flight risk" patients. The Safe Place platform can be programmed to allow all of its solutions, including ED, Infant and Pediatric and Fall Monitoring, to communicate directly with one another.

About RF Technologies

RF Technologies is a leading provider of comprehensive, integrated RFID Safety and Security systems, Wi-Fi RTLS systems, and healthcare enterprise solutions. With an installed base of more than 10,000 systems worldwide, RF Technologies specializes in state-of-the-art healthcare solutions for senior care facilities and hospitals, including Code Alert® Wandering Management, Wireless Call and Fall Management Solutions, Safe Place® ED and Infant Security Solutions, and PinPoint® RTLS Location-Aware Solutions. The company is credited with inventing the first RFID infant security system, which was designed and developed by nurse clinicians. It was the first in the industry to invent Peer-to-Peer Wi-Fi RTLS, and to offer Remote Monitoring, RF Consulting and 24X7 technical support by RF Technologies' staff specialists and a nationwide service management team. www.rft.com

About Premier Inc., 2006 Malcolm Baldrige National Quality Award recipient

The [Premier healthcare alliance](#) is more than 2,100 U.S. hospitals and 58,000-plus other healthcare sites working together to improve healthcare quality and affordability. Premier maintains the nation's most comprehensive repository of clinical, financial and outcomes information and operates a leading healthcare purchasing network. A world leader in helping deliver measurable improvements in care, Premier works with the Centers for Medicare & Medicaid Services and the United Kingdom's National Health Service North West to improve hospital performance. Premier has offices in San Diego, Charlotte, N.C., Philadelphia and Washington.
