

Complete Educational Package for Now and the Future

The SAFE PLACE® Resource Kit provides continued support for staff long after implementation of your SAFE PLACE Infant & Pediatric Security Solution.

Included in the kit are the tools and resources you need to facilitate continuous learning, educate staff, families and parents, and establish an ongoing, effective security solution.

- All-inclusive Step by Step **Resources Manual** provides valuable guides and user friendly FAQs to aid in education
- Tri-fold **Patient Education Brochures** keep families informed
- **Infant Security Room Poster** provides staff members with a visual reminder of Safe Place security guidelines
- **Super User Essential Workbook** provides step-by-step instructions for super user functions
- **User Essentials Workbook** provides valuable guides and user friendly FAQs to aid in staff education
- **BABY CHECK™** Staff Training Sheet provides users with step-by-step instructions on how to use their BABY CHECK transmitters and respond to associated alarms.

Technical Support is Just a Call Away

(800) 669-9946, Option 5

Customized Clinical Support

A Resource Kit is included with every Safe Place Go-Live support package. Ask your Safe Place representative about our Clinical Education options and how our expert Clinical Nurses can assist in configuring a software solution that suits your facility's workflow goals and existing practices.
