

NEW! EnGenius® DuraFon™ PRO with TAP

- Combines the functionality of a pager, phone and 2-way radio into one handset
- Integrates to receive paging notifications and alerts from Code Alert and Safe Place software
- Ideal for buildings up to 500 ft. diameter
- No FCC licensing requirements
- Expandable to 28 lines, 90 handsets

Communication Simplified

The DuraFon PRO with TAP solution allows caregivers and staff to remain active throughout the building, communicate with staff, and receive alerts without carrying multiple devices.

Scale to Your Needs

The DuraFon PRO is a long-range, expandable cordless phone system ideal for locations that require a longer range communication solution than Wi-Fi phones or DECT phones can deliver.

Does your staff currently carry any of these?		
 Pagers	 Phones	 Walkie-Talkie
One rechargeable DuraFon PRO Handset can replace them all .		
↓ ↓ Display pages directly on handset display	↓ ↓ Integrate with existing PBX or outside lines	↓ ↓ Secure, HIPAA-compliant intercom

EnGenius®

RF Technologies is pleased to have a partnership with EnGenius to integrate their system with our messaging options.

RF Technologies is a leading provider of safety and security solutions for the healthcare, hospitality, and education markets, leveraging radio frequency identification (RFID) and PinPoint® real-time locating system (RTLS) technologies.
