

Protection Plans

Protection Plans help you get the most out of your system:

- Maximize safety & security
- Optimize system performance & uptime
- Extend system life & reliability
- Reduce/eliminate emergency service calls
- Predict & budget your maintenance costs

Stay Secure, Long After Your Purchase

Protecting your investment is an important aspect of increasing the longevity of your Safe Place® or Code Alert® system and keeping those inside your facility safe. An effective maintenance program:

- Lowers your total cost of ownership over time
- Optimizes system performance and reliability
- Reduces risk and reliability exposure
- Minimizes unbudgeted repair costs

Protection Plans

RF Technologies offers three levels of Protection Plans to meet your specific system and service needs. Plans are available in one- to five-year packages, offering extended hours of coverage:

- **Basic:** Base-level package with functional inspection service
- **Extended:** Best for facilities with in-house maintenance staff
- **Complete:** Complete suite of services with full parts and labor coverage

All of our plans come with our after-hours Level 2 technical phone support, available 24/7/365.

By bundling one of our world-class plans with our expert services and our guaranteed response, you can be confident your system can achieve your security, performance, safety, and budget goals.
