Description

Quick Response® Plus Wireless Call Pendants enable residents to summon help with the press of a button. The pendant can be worn around the neck, strapped to the wrist or hooked on clothing. When activated, care staff are alerted to the resident's location, thereby improving staff efficiency.

NEW Quick Touch™ Pendant

- Sixty percent (60%) smaller and lighter than the Standard Pendant
- Vibration gives tactile confirmation alarm was placed; bright flashing LED provides peace of mind that help is on the way and makes it easier for staff to identify the resident in a group
- Alarm can be cleared with a swipe of the clearance card, saving time
- High contrast activation button with dimpled surface is easy to find; button is recessed to reduce false alarms
- The necklace length is adjustable; the dedicated wrist version fits like a real watch

Standard Pendant

- LED flashes to confirm call was placed, providing visual confirmation and peace of mind
- Includes belt/strap clip option in addition to necklace, wristband and lanyard
- Large button is easy to activate for residents with arthritis or similar impairment

Features

- Conforms to UL 2560 for Wireless Signaling and Nurse Call Devices
- Fully supervised system alerts you of low batteries and device failures
- Comfortable for active lifestyles; discreet appearance promotes dignity and home-like environment
- Provides greater mobility for residents; can work both indoors or outdoors, depending on configuration
- Optional room level location reduces response time
- Call data can be sent to optional communication devices such as pagers, Quick Look™ LED displays and wireless phones
- Safe for use during daily bathing
- Proven reliability from a trusted brand
- Compatible only with Code Alert version 9.2 or higher

“UL 2560 certification ensures quality, safety and performance for your residents and staff.”
