

Open, Friendly Environment

The CODE ALERT® Wander Management Solution enables Adult Day Centers to maintain an open, barrier-free environment while safely and discreetly monitoring residents who are at risk of wandering or eloping.

- Residents wear small, lightweight transmitter that signals your staff when a monitored door has been opened
- The system can also be configured to lock the door
- Prevents unauthorized departures and reduces the risk of injuries and liabilities

Additional Features & Benefits

- Allows staff and family to flow throughout the center freely
- Simple and easy-to-use touchpad at the exit
- No computer or software needed

Features

- Barrier-free security for memory care clients
- Reduce the risk of elopements
- Staff can spend more time on primary functions
- Maintains home-like environment
- Designed to meet the budgets of Adult Day Services
- Increase census
