

About RF Technologies (RFT)

As a leading provider safety and security solutions for the healthcare, hospitality, and education markets, RFT is your single-source for all of your healthcare safety and security needs. The RF Technologies brand family includes:

- **CODE ALERT®** Nurse Call and Wander Management Solutions
- **SAFE PLACE®** Patient Security Systems
- **HELP ALERT®** Mobile Panic Alarms
- **SENSATEC®** Fall Management Solutions
- **EXACTRACK®** Equipment Location Systems

Our comprehensive and customizable solutions are designed to help ensure the safety of residents, patients, staff, students, and guests. With a 30+ year company history and more than 10,000 installations nationwide, you can rest assured your investment will be supported for years to come. RFT manages your complete experience including sales, install, go-live and life cycle support.

Quality and Reliability

- Each alarm unit hand-tested prior to leaving our facility in Brookfield, WI.
- Manufacturer-direct purchasing with the assurance of 24/7 tech support.
- Reinforced sensor pad connector reduces sensor pad replacement costs.
- Alarm protocols are CMS, restraint-free compatible.

Safety and Reduced Liability

Chair Pads: Cushioned sensor pad design without fused weld edges in patient seating area for optimum comfort and reduced pressure on sensitive skin.

Bed Pads: Pad design enables placement under-shoulder to provide early bed-exit notification.

Improved Staff Efficiency

- Oversized pads with larger seating area prevent nuisance alarms.
- Alarm unit design allows for single-hand operation, with notification to peripheral and smart devices.
- Polyethylene sensor pad cover grips seating surface directly, eliminating need for time-consuming attachment of adhesive strips, elastic banding, etc.
- Concealed switch/key design simplifies sanitization

Seamless Integration and Compatibility

- Alarm units are compatible with both bed and chair pads (nurse call system integration and AC power operation options also available) for seamless and hassle-free ease of use.
- Inputs positioned on the bottom of the alarm unit prevent liquids from damaging internal components.

Supplier Partnerships and Upgrades

- We partner with some of the top and most comprehensive distributors, catalogs, and DMEs.
- Our partnerships allow stream-lined supply chain logistics, minimized cost, and reliable service and delivery.
- We incorporate leading-edge technology to proactively identify future products, systems, and solutions in a “plug-n-play” format for a clear, upgradable path.

Service & Support

- Overall, 75% first call resolution on all tech support calls
- 30 field-based service representatives nationwide
- 24/7 technical support
