

Expert, In-House Service

You'll receive a complete suite of support services, from our resident safety experts.

- Nationwide service teams deliver prompt, onsite support for peak performance
- Service agreements minimize unbudgeted expenses
- 24/7 technical support

RFT is a turn-key manufacturer and provider of life safety solutions for the senior living, healthcare, education, and hospitality markets. With 11,000+ installations since their founding in 1987, RFT is a collaborative partner in designing custom-configured solutions that meet each customer's needs and reduce their liabilities. The RFT family of solutions includes CODE ALERT® nurse call, fall detection, and wander management, SAFE PLACE® patient, staff, and asset protection, HELP ALERT® staff duress, and SENSATEC® fall management products.

CODE ALERT®

Fall Detection Solutions

Fall Management Solutions

Keeping people safe since 1987

Mobile, Wearable Fall Detection

Advanced wearable technology automatically issues fall alerts, even if the resident is unable to trigger nurse call.

Faster Response Times

Immediate Fall Alerts

High-Risk Event Awareness

Site-Wide Detection

Care Intervention Planning

Unreported Fall Event Logging

Better Resident Outcomes

Automatic Fall Activation

Alarm Activation

Alarm Clearance

Low Battery

Fall Detection Pads, Alarm, & Universal Transmitter

Reduce risk of falls and integrate detection with existing nurse call systems. RFT's most economical fall management solution is ready to use, right out-of-the-box.

Wireless Universal Transmitter integrates with Code Alert and QR +.

SENSATEC®

Fixed, Room-Specific Fall Detection

Highly accurate, artificial intelligence (AI) driven 4D point cloud imaging monitors residents 24/7, and issue alerts to caregivers with a full-featured app.

Preserve Resident Dignity

No Cameras

Reduce Liabilities & Cost

Resident Data Reporting

Protect Your Residents

30 Minute Faster Response

Gather Important Insights

Latent Fall Reporting

AI 4D Radar & Light Sensor,
Microphone & Speaker

Eliminate Alarm Fatigue

Touchless Technology

Full-Featured App

- Monitors room occupancy, detects visitors, logs time in bed and time spent walking in the home.
- Each Chirp device has a timeline which summarizes occupancy for the last 12 hours, which can reveal issues quickly.
- The care recipient can say “help” to trigger a notification in the Chirp app.
